WHY US?

Custodian Facility management, an ISO 9001:2015 & ISO 45001:2018 certified and CRISIL Rated service provider, is one of the recognized and most modern facility management services in Eastern India. We serve some of the best known and largest business and corporate houses in Kolkata and other parts of Eastern India.

SECURITY

SECURITY MANAGEMENT

One of the primary requirements of Facility Management is to secure the facility and hence Security forms one the most important part of Facility management. Everything comes into play only once the Facility is secured.

Our Security vertical is in sync with the most advanced and professional security standards followed globally and we are one of the few companies in Eastern India to provide a Complete and One point Security Services. We not only take care of complete security manpower & equipment but also plan & design end to end security management system.

We hold the unique distinction of being the only security management company in Eastern India ever to plan & design the complete security management system for a State Legislative Assembly (Vidhan Sabha).

HOUSEKEEPING MANAGEMENT

As one of the foremost facility management service company, we understand the importance and dynamics of soft services like housekeeping, janitorial, gardening, waste management, office management, vendor management and others.

As a professional player, we do not look at soft services as a commodity. For us, a soft service is an art – after perfecting the same as a science. Efficient rendering of these services will positively impact your business, build your brand equity and increase your employee morale.
